Can you please add beside the job description a box that will display the number of jobs available for that position. Eg 25 Kiwifruit packers (we are needing this so we can understand how many jobs there are in each roll.

Also where it say "posted 4 years ago" can this show when it was last updated instead of posted. Can it say "last updated....." this is so the people looking for a job can see if it is still relevant.

Manage applicant needs to be highlighted in blue because you are on the page, this show “manage jobs” in blue should be “Manage Applicant” in blue.

Under the applicants name you have “Senior UI/UX Designer” please can you remove this as most of the positions that will be advertised on this site are un or low skilled jobs. Instead can you please change this to “Current location New Orleans” so that a glance the Employer can see where they are.

On the right hand side is it possible on all pages when you hover over the icon it shows what the action is ... eg delete, email etc.

Please remove aspect that has red line though it... not sure what that is about. Instead display “location” and then have the location the job is in ..eg New York City

I have circled “Full time” for This needs to align with the “contract type” which is one of the fields we have asked to be added. The field selection will either be “Fixed term” “casual” “contract rate” or “other” (this was on a previous update that we sent back)

Description Of Job

Some of these changes were mentioned on previous updates

Please ensure that “Send CV and Cover letter now” and “Yes I am interested” are either or on display. The employer would select how they wanted to have applications come through. Only one would display and they would select this when they were creating the advert.

Hours per day.... Would be a range (this was mentioned in a previous update) 0-4 hours per day, 4-8 hours per day 8 or above hours per day. (Hours per day would not hav an hourly rate.)

You also need to have “Hourly rate” which would display \$17.50 + 8% for example or negotiable. This is in the preivew part but not mentioned here. (please ensure all of these match up)

Beside each star can the following explanation be put. (rating for Employer) could the explanation be on a drop down list. (so is hidden with an arrow)

For Employer

The workers experience and Businesses facilities far exceeded expectations. Employer has given significant thought to the wellness and comfort of their staff. The worker fully understood what was expected of them and the work that was required to be done was fair and reasonable. The payment that was offered for the position was fair and reasonable and the Employer / Owner / Manager often showed the worker appreciation. The workplace atmosphere and culture was enjoyable and consistent with the company values. The worker felt they were inducted well into their position and felt valued and safe. 5 Stars (E): Exceptional

The workers work ethic and honesty exceeded expectations. The worker had excellent timekeeping, showed initiative and was a positive and valued member of the team. Their skills and attributes exceeded the business's expectations and their ability to quickly learn an unfamiliar task was impressive. The worker was fair and reasonable at all times and there were no employment issues during their time of employment with the business. They were tidy, respectful and safety conscious with all the work resources and tools they were given. This staff member is worth paying a little more for if you can secure and would be an asset to your business. I would have no hesitation in re-employing this staff member, and would highly recommend this staff member to other Employers.
